Adarsh Vidya Niketan Sr. Sec. School  
March 2014 - March 2015

## INTERESTS

Volleyball | Poetry | Cricket

## CERTIFICATES

Masai Graduation   
Masai School

## PROFESSIONAL SUMMARY

Dynamic Web Developer skilled in the MERN stack with strong problem-solving abilities and attention to detail. Expert in using Generative AI to optimize development workflows. Quick to learn new technologies, particularly in designing scalable web applications with seamless frontend-backend integration.

## WORK EXPERIENCE

### Global Web Technology

Frontend Developer

March 2024 - June 2024

#### Job responsibilities:

- Translated complex website designs from Adobe XD into responsive web pages, ensuring a pixel-perfect match with original design elements using HTML, CSS, and JavaScript.
- Implemented frontend features for Shopify-based stores by utilizing Shopify's Liquid templating, customizing themes, and templates to meet dynamic project requirements.
- Regularly communicated with clients to gather and incorporate feedback into the development process, ensuring alignment with client expectations.

## PROJECTS

### 1. ShopBag | |

Stripe | JWT | JavaScript | React | Redux | Node.js | Express.js | MongoDB | RESTful APIs | HTML5 | CSS3 | Responsive Web Design | Tailwind CSS

- Developed and maintained a full-stack e-commerce website using the MERN stack, ensuring seamless integration between frontend and backend components.
- Implemented secure user authentication using JWT alongside a responsive user interface with React.js.
- Integrated Stripe for secure payment processing, enhancing the shopping platform's usability and security.
- Created and optimized MongoDB database models and queries to support efficient data storage and retrieval.
- Conducted thorough testing and debugging to ensure stability and reliability of the web application.

### 2. expedia.co.in Clone | |

JavaScript | React | Redux | HTML5 | CSS3 |

Responsive Web Design | Chakra UI | Mock API

- Collaborated in a team to recreate an advanced clone of Expedia using JavaScript, React, and Redux for frontend development.
- Focused on user authentication, profile update functionality, and user's trip history page with user authorization.
- Designed a responsive navbar and footer to enhance the user interface with HTML, CSS, and Chakra UI.
- Implemented search functionality and personal user trips history page to improve user engagement.
- Participated in team meetings to ensure alignment with requirements and integrate feedback effectively.
